	1. Intense Competition & Market Saturation			
	Strategies:			
	n n n n n n n n n n n n n n n n n n n			
	value.			
	<ul> <li>Emotional Branding → connect beyond functional</li> </ul>			
	benefits.			
	<ul> <li>Storytelling &amp; Purpose-driven branding → brands with a</li> </ul>			
	mission (e.g., Patagonia, TOMS).			
	2. Rapidly Changing Consumer Preferences			
	• Strategies:			
	<ul> <li>○ Continuous consumer research → social listening,</li> </ul>			
	surveys, analytics.			
	o Agility in marketing → adopt new channels (TikTok,			
	Instagram Reels, AI chatbots).			
	o Co-creation with consumers → involve customers in			
	product/brand evolution.			
	3. Digital Disruption & Information Overload			
	• Strategies:			
	o Integrated digital marketing → consistent omni-channel			
	presence.			
	o Content marketing & influencer partnerships → authentic			
	engagement.			
	<ul> <li>Data-driven personalization → AI/ML to deliver relevant</li> </ul>			
	experiences.			
	<u> </u>			
	4. Balancing Global Consistency with Local Relevance			
	• Strategies:			
	<ul> <li>o "Think global, act local" → standardize core values,</li> </ul>			
	localize execution.			
	<ul> <li>○ Cultural intelligence → hire local brand managers who</li> </ul>			
	understand nuances.			
	<ul> <li>○ Flexible brand architecture → endorsements, sub-brands</li> </ul>			
	for different markets.			
	5. Maintaining Customer Trust & Loyalty			
	• Strategies:			
	<ul> <li>Authenticity &amp; transparency → deliver on promises.</li> </ul>			
	<ul> <li>○ Consistent brand experience → across touchpoints</li> </ul>			
	(online, offline, service).			
	, , , ,			
	relationships.

2.(a)	Define internal branding & state its significance.	[03]	CO2	L1
	Internal branding is the process of aligning and engaging employees with the			
	brand's vision, values, and promises, so that they deliver a consistent brand			
	experience to customers. It ensures that employees "live the brand" in their daily			
	behavior, decisions, and interactions.			
(b)	Critically evaluate the effectiveness of Kapferer's Brand Identity Prism in	[07]	CO2	L5
	capturing the identity of a global brand such as Starbucks. What			
	dimensions of the prism are most relevant in today's digital-first branding			
	environment, and which may need rethinking?			
	Kapferer's Brand Identity Prism consists of six dimensions of brand identity, grouped			
_	D 2 CO			

into:

- External (how brand is expressed to customers): *Physique, Relationship, Reflection*
- Internal (how brand sees itself)\*: Personality, Culture, Self-image

## **Application to Starbucks**

- 1. Physique (tangible attributes)
  - Starbucks' distinctive green logo, store design, coffee cups, and café ambience.
  - o Acts as a recognizable brand signature across geographies.
  - Effectiveness: Very strong; physical identity is consistent globally.
- 2. Personality (brand character if it were a person)
  - o Warm, welcoming, socially responsible, premium yet approachable.
  - Communicated through barista interactions, brand storytelling, and tone of communication.
  - Effectiveness: Effective, but in the digital-first era, personality must also extend to *online voice* (social media, mobile app).
- 3. Culture (brand values & principles)
  - Rooted in inclusivity, sustainability, and "third place" philosophy (home-work-Starbucks).
  - o Initiatives like ethical sourcing (C.A.F.E. practices) and community engagement reinforce this.
  - Effectiveness: Highly relevant globally; culture is central to brand strength.
- 4. Relationship (nature of customer-brand interaction)
  - Starbucks is not just about coffee  $\rightarrow$  it's about *experience*: personalization (name on cup), loyalty app, rewards.
  - o Effectiveness: Strong offline & digital relationship management; mobile ordering & rewards ecosystem have strengthened bonds.
- 5. Reflection (how the brand reflects its consumers)
  - o Represents modern, cosmopolitan, socially conscious, aspirational consumers.
  - o In emerging markets, it signals status and modern lifestyle.
  - o Effectiveness: Effective, though risks stereotyping as "elitist" brand in some markets.
- 6. Self-image (how consumers see themselves using the brand)
  - Consumers view themselves as sophisticated, globally connected, socially aware.
  - Starbucks becomes an extension of identity → "I'm part of a global café culture."
  - Effectiveness: Strong, but with growing scrutiny on sustainability, consumers may question whether self-image matches reality (greenwashing concerns).

## Most Relevant Dimensions in Today's Digital-First Branding

- Relationship → Digital engagement through apps, rewards, personalization is crucial.
- Personality → Social media voice, storytelling, brand activism define perceptions.
- Culture → Transparency, ethical sourcing, and sustainability resonate with digital-savvy consumers.

## **Dimensions That May Need Rethinking**

- Physique → Still important, but Starbucks' *digital interface (mobile app, delivery, digital wallets)* is now part of its physique not just physical stores/cups.
- Reflection → Needs careful handling to avoid elitist image; must adapt to

	<del>,</del>			
	inclusivity and accessibility in diverse markets.			
	• Self-image → With sustainability concerns and "conscious consumerism,"			
	Starbucks must ensure consumers' self-image of being ethical/socially aware			
(-)	is supported by real action.	[10]	COA	T 4
(c)	Analyze how the different building blocks of Keller's CBBE model (salience,	[10]	CO2	L4
	performance, imagery, judgments, feelings, resonance) interact to shape			
	consumer perceptions of a digital-first brand like Nykaa or Mamaearth.			
	Will a CDDEAK 110 M. I. D. HE. W. J. D. W. I. D.			
	Keller's CBBE Model & Nykaa: Building Brand Equity in a Digital-First			
	Context			
	Keller's model shows how brands build equity step by step:			
	Salience → Performance → Imagery → Judgments → Feelings → Resonance			
	1. Brand Salience (Awareness & Recall)			
	Nykaa's Strategy:			
	<ul> <li>Strong digital presence (website, mobile app, social media</li> </ul>			
	campaigns).			
	o Influencer collaborations & YouTube tutorials create top-of-			
	mind awareness.			
	<ul> <li>Seasonal campaigns like "Pink Friday Sale" boost recall.</li> </ul>			
	• Impact on Consumers:			
	Nykaa is among the <i>first recalled</i> brand names for online			
	beauty and wellness in India.			
	2. Brand Performance (Functional Deliverables)			
	Nykaa's Strategy:			
	<ul> <li>Wide product portfolio (beauty, personal care, luxury,</li> </ul>			
	wellness).			
	<ul> <li>O Authenticity guarantee → combats counterfeit issues.</li> </ul>			
	o Smooth digital experience (app UX, recommendations,			
	payment, fast delivery).			
	<ul> <li>Omnichannel expansion → offline Nykaa Luxe &amp; On-Trend</li> </ul>			
	stores.			
	Impact on Consumers:			
	o Perceived as reliable, trustworthy, and convenient for beauty			
	shopping.			
	3. Brand Imagery (Psychological & Symbolic Associations)			
	Nykaa's Strategy:			
	o Projects itself as aspirational yet accessible.			
	o Celebrity endorsements (Katrina Kaif, Janhvi Kapoor) reinforce			
	glamour appeal.			
	<ul> <li>Strong association with empowerment → tagline "Your Beauty.</li> </ul>			
	Your Choice."			
	• Impact on Consumers:			
	<ul> <li>Consumers (esp. millennials &amp; Gen Z) see Nykaa as stylish,</li> </ul>			
	inclusive, modern, and aspirational.			
	4. Brand Judgments (Consumer Opinions & Evaluations)			
	Nykaa's Strategy:			
	<ul> <li>Quality judgment → "authentic products, wide range."</li> </ul>			
	<ul> <li>○ Credibility judgment → backed by influencers, reviews, and</li> </ul>			
	transparent policies.			
	<ul> <li>Superiority judgment → Nykaa differentiates via curated</li> </ul>			
	collections & exclusive launches.			
	Impact on Consumers:

<ul> <li>the brand.</li> <li>Nike Fit: Evokes action, determination, achievement → core values of sports and fitness.</li> <li>Impact: Conveys Nike's brand promise: empowerment through sport.</li> <li>Likability</li> <li>Criterion: Aesthetically appealing, fun, or interesting.</li> <li>Nike Fit: Motivational, universal, and inspiring → resonates emotionally with athletes and everyday consumers alike.</li> <li>Impact: People internalize it as a personal motto, not just an ad line.</li> <li>Transferability</li> <li>Criterion: Applicable across products, markets, and cultures.</li> <li>Nike Fit: Works equally well for running shoes, basketball gear, fitness apparel, and global campaigns.</li> <li>Impact: Slogan transcends categories and languages</li> </ul>			
<ul> <li>(translated/adapted worldwide).</li> <li>5. Adaptability <ul> <li>Criterion: Flexible enough to remain relevant over time.</li> <li>Nike Fit: Launched in 1988 → still powerful today, adaptable to new contexts (e.g., women empowerment campaigns, inclusive sports, sustainability).</li> <li>Impact: Maintains freshness through evolving advertising themes.</li> </ul> </li> <li>6. Protectability <ul> <li>Criterion: Legally protectable and defendable against imitation.</li> <li>Nike Fit: Trademarked slogan → legally protected as Nike's property.</li> <li>Impact: Prevents dilution and unauthorized usage.</li> </ul> </li> </ul>			
(c) Evaluate the effectiveness of leveraging secondary brand knowledge through brand endorsements by sports celebrities.  • According to Keller, brands can build equity not only through direct consumer experiences but also by leveraging secondary brand associations (e.g., people, places, events, channels, other brands).  • Sports celebrities are a powerful source of such associations, as they transfer their credibility, performance, and aspirational qualities to the endorsed brand.  Effectiveness – Advantages  1. Enhanced Credibility & Trust  • Athletes are often seen as authentic and high-performing.  • Endorsements transfer these qualities to the brand (e.g., Federer–Rolex, Virat Kohli–Puma).  2. Instant Awareness & Recognition  • Celebrities attract attention in cluttered markets.  • For new product launches, association with a sports icon accelerates brand salience.  3. Emotional & Aspirational Connect  • Fans admire and idolize athletes; buying endorsed products fulfills aspirational desires (e.g., Air Jordan with Michael Jordan).  4. Global Appeal  • Sports icons transcend borders, helping brands scale globally (e.g., Cristiano Ronaldo for Nike).  5. Differentiation  • In categories with parity products (e.g., sports apparel, energy drinks), endorsements create a unique identity.	10]	CO2	L5

Limitations & Risks  1. Celebrity-Brand Misfit  O If the celebrity's image doesn't align with the brand (e.g., luxury vs. mass-market positioning), effectiveness diminishes.  2. Overexposure  Many athletes endorse multiple brands, leading to diluted associations (e.g., Dhoni endorsing too many brands at once).  3. Celebrity Risk / Scandals  Negative publicity (doping, controversies) transfers to the brand (e.g., Tiger Woods' scandals affecting endorsements).  High Cost vs. ROI  Contracts with top athletes are expensive; not always justified by increased sales.  Short-lived Impact  Endorsements may drive awareness but not always long-term loyalty if the brand promise is weak.  Strategies to Maximize Effectiveness  Careful Fit Analysis: Align celebrity's values, personality, and sport with brand essence.  Long-term Partnerships: Build sustained association (e.g., Nike Jordan, Pepsi-Sachin Tendulkar in the 1990s).  Integrated Storytelling: Move beyond ads — embed the athlete into brand narratives (e.g., Adidas creating Messi-centric campaigns).  Risk Diversification: Endorse multiple athletes across sports to reduce dependency.  Leverage Digital Platforms: Use athletes' massive social media reach to co-create brand content.  Evaluation in Today's Digital-First Branding  Effective when: The athlete's personal brand is authentic, socially relevant, and resonates with younger digital audiences. Used in interactive campaigns (Instagram Lives, co-created YouTube content, TikTok challenges) — deeper engagement than traditional ads.  Less effective when: The brand relies solely on the athlete's fame without reinforcing product quality or consumer experience. Risk of consumers following the celebrity but not transferring loyalty to the brand.  Using David Aaker's Brand Equity Model, develop a brand strategy for a new electric two-wheeler competing with Ola Electric. Explain how you would build awareness, strengthen brand associations, ensure perceived quality, and foster brand loyality.  Aaker's Pillar Strategic Focus PR
o If the celebrity's image doesn't align with the brand (c.g., luxury vs. mass-market positioning), effectiveness diminishes.  2.
